THE SENTINEL, having double the circulation IN THE CITY, and more than treble OUT OF IT, of any other paper here, renders it far the cheapest and most desirable medium in Milwaukee for all classes of Advertisements.

EVERY BUSINESS MAN who consults his own interest, will avail himself of the columns of THE DAILY SENTINEL,—especially when he can do so at the same prices charged by other papers, and secure more than double the advantage of circulation.

This is no boast, but EVERY WORD TRUE.

News Digest.

The steamer *Gazelle*, of WARD's Lake Superior Line, went on the rocks at the mouth of Copper Harbor, Lake Superior, on the morning of the 10th, and will prove a total loss, together with her cargo. Her passengers were taken off in safety.

Late advices from Central America states that Gen. WALKER and his followers have been captured by an armed force from the British war steamer *Icarus*, and that Gen. WALKER and Col RUDLEY were to be shot. Serves them right.

A terrible gale prevailed in the Gulf of Mexico on Saturday, doing great damage to the shipping. All the houses at the Balize were swept away, and one town near Lake Pontchtrain was entirely destroyed.

The steamship *Jura* reached Quebec yesterday with Liverpool advices to the 6th inst. The political news is unimportant. The weather in England continues fine, in consequence of which a material decline has taken place in breadstuffs.

Judge DOUGLAS reached Clifton Springs, N. Y., on Saturday, where, we are happy to state, he succeeded in finding his mother. He publicly announced the fact to those who had assembled to hear him.

A number of interesting news items will be found in our telegraph columns.

SENATOR SEWARD IN THE NORTH-WEST.

The Trip Up the Mississippi.

Editorial Correspondence of the Sentinel.

STEAMER MILWAUKEE, Sept. 15, '60.

The "Wide-Awake" demonstration at La Crosse last night, in honor of Governor SEWARD, was somewhat interfered with by a heavy storm. Nevertheless they mustered in large numbers and marching to the hall where the meeting was to be held, filled it to overflowing. Indeed there were quite as many people outside, as inside the building, though the rain fell fast. The speakers of the evening were Senator WILKINSON, of Minnesota, and Senator DOOLITTLE, of our own State. Each gentleman made a capital address, and fairly woke up the enthusiasm of the "Wide-Awakes." During the day and evening, the different members of our party improved the opportunity to look about La Crosse, and those of us who saw it for the first time were very favorably impressed with its thrifty look and the genial hospitality of its people. The Republican cause is gaining ground, hereabouts, and the vote in November will show that North-Western Wisconsin is firm and unwavering in its political faith.

It was the intention of our party to leave La Crosse, early Friday evening, in order to reach St. Paul before midnight, Saturday.—But a tremendous storm, which came up about 9 o'clock and raged incessantly for several hours, compelled us to change our purpose. The rain fell in torrents; the wind blew a gale from the South-East; and the darkness, which was intense, was relieved at frequent intervals, by vivid lightning. It was nearly daylight when the storm so far abated as to enable our boat to proceed on her up-river trip. We did not regret the delay, for with the morning came fair weather; a clear sky and a bracing North-West breeze; which, with the ever-varying panorama of the upper Mississippi, made a day of delightful enjoyment for all of our party and a new experience for most of them.

As we approached WINONA, glittering in the distance and fair to see, a gun from the shore gave notice of our coming. "Young America" responded from the boat and when we drew up to the landing a large crowd of people had gathered together to welcome Senator SEWARD to Minnesota. The greeting was earnest, kindly and respectful. Under the escort of Senator WILKINSON and Judge GOODRICH, Mr. SEWARD and Mr. ADAMS proceeded to a building near at hand, from the upper piazza of which they each briefly addressed the crowd. WINONA, like La Crosse, is a "Wide Awake" city, and promises great things for the Republican cause this fall. The Republicans there seemed loth to part with Senator SEWARD; but as the boat could not wait for anybody, we had only to make a short stop. The visit, however, was a pleasant one, and not, it is hoped, unprofitable.

Leaving Winona our boat sped rapidly up stream, the landings being few and brief. As I write we are nearing Lake Pepin, which the party hope to cross by daylight, it being new to all of our Eastern guests. The day has been most favorable, and the sail as pleasant a one as could be wished. By early to-morrow morning, we hope to reach St. Paul, where we remain until Tuesday night. Great preparations are making there to give the New York Senator and his companions a grand reception.

The heavy rain of last night has told upon the river. The water is rising and the *Milwaukee* glides along swiftly. We have run upon no bars yet, though we did have a slight collision with a raft. The damage done was inconsiderable, but the amount of swearing done by the raftsmen would have frightened "our army in Flanders."

Captain COCHRANE and the Clerk, Mr. COOPER, have been indefatigable in their attentions and have won a unanimous vote of thanks from all on board the *Milwaukee*.

R. K.

WHILE JUDGE DOUGLAS is, giant-like, fighting his own battle in New England, Pennsylvania, and even "bearding the Lion" in Virginia, his friends[!] in New York are "selling him to the Egyptians," and "parting his raiment," as calmly and cruelly as JOSEPH was sold by his Brethren. His "coat of many colors" has already gone to the "Know Nothings," and now the "Disunionists" are to have his waistcoat. The "Abolitionists will be in with a claim for his sandals. And then these remorseless friends will go to his mother and say, truly, that her youngest and beloved son "hath been devoured by wild beasts."

THE RIPON CONVENTION.—The Oxford *Republican Express* says that the Convention and demonstration which came off at Ripon on the 5th, was the most magnificent ever witnessed in northern Wisconsin. The Wide-Awakes from Berlin, Oshkosh, Fond du Lac, Waupun and Ripon, numbering in all about nine hundred, under the Marshalship of Col. KIBBEY, had a torchlight procession in the evening.

Severe Accident.

Correspondence of the Sentinel.

RUBICON, Sept. 15th, '60.

MESSRS. EDS:—This morning about nine o'clock, a man named FRITZ DINGLE, employed on a threshing machine near this village, met with a very severe accident.

It happened in his climbing upon the machine for the purpose of adjusting the "straw-carrier" which did not work to suit him. His foot slipped so as to cause his leg to get into the "concave" while the cylinder was in full motion; the result was that his foot was horribly smashed and the flesh torn from his leg from a few inches below the knee down.

The wounded and lacerated limb was carefully and properly dressed by Dr. T. HARKING, of this place.

At this writing, 11 1-2 o'clock, a. m., the patient is doing well, everything considered.

Yours truly, G.

THE MAIL BAGS ON BOARD THE LADY ELGIN.—Among the property cast ashore and plundered on that fearful day, was the mail bag of the steamer made up in the Chicago Post Office, on Friday evening, 7th instant. The bag was found a day or two later, cut open and rifled of its letter packages. Mr. ARMSTRONG, the Assistant Postmaster, informs us that the bag contained letter packages as follows: Copper Harbor, Mich., 1 package; Eagle Harbor, 2 do; Eagle River, 3 do; Portage Lake, 2 do; Hancock, 2 do; Mackinac, 2 do; Negaunee, 1 do; Ontonagon, 1 do; Fort William, 1 do; Clifton, 1 do; Houghton, 3 do; Marquette, 3 do; N. W. Mines, 1 do; Minnesota Mines, 3 do; Whittlesea, Wis., 1 do; Bayfield, 3 do. Thirty-one in all, beside the newspaper packages, which are nearly all destroyed.

MAN KILLED.—Mr. THOMAS SMITH, of Melrose, a single man of about 25 years, came to a sudden death on the 10th instant. He had returned home from Sparta on Saturday night, and was engaged in putting up his team; all the family were abed but his mother. She heard a groan out doors and going out found her son on the ground, senseless and unable to rise, though he was apparently endeavoring so to do. Both horses had been unhitched from the wagon, and the harness had been removed from one, the other had run away with the harness on. The supposition is that one of the horses kicked Mr. SMITH, although the wound on his head bears but little resemblance to that which would naturally have been inflicted by a horse's foot. The young man lingered from Saturday night to Monday, when he died, without recovering his senses.

THE MILWAUKEE SENTINEL denies having published the statement concerning the use of the figure head of the Lady Elgin in the procession of Tuesday last. We cut the very words that we used from the *Sentinel*, as a part of the copy we set up. If it is not satisfied on that point, we can send them the paper that we cut it from. We don't blame the *Sentinel* for being ashamed of the exhibition, if such a use was made of it. The other papers confirm the statement.—*Racine Journal.*

The *Journal* is simply mistaken. No such statement ever appeared in the Milwaukee *Sentinel*. The occurrence we know nothing of, and are compelled to assure our friend that he cut the paragraph from some other and less careful sheet.

RAILROAD MORTGAGES CANCELLED.—The Beloit *Journal* says a Railroad Mortgage given by the RUBLE BROTHERS in that town (to the M. & M. R. R. we suppose,) for $6,000 has recently been cancelled for $3,000.

A meeting of the mortgagors is called at the City Council Room on the 15th of the present month, to consult upon the means ameliorating their condition.

SAD ACCIDENT.—A child of TIMOTHY O'CONNER, residing about a mile west of Elkhorn, while playing with a knife on Monday last, fell in such a manner as to cut a frightful gash in the neck, severing the left jugular vein. Dr. REYNOLDS was immediately sent for, who dressed the wound and the child is likely to recover.

UNITED STATES FAIR.—The U. S. Fair of Cincinnati is in "full blast." The display of stock is much better than last year. The arrangements we should judge were better than heretofore.

C. S. CAMPBELL, a prominent DOUGLAS candidate of Chicago, boldly takes the ground that Southern Slavery is right; and that Popular Sovereignty is a humbug!

CLOSING SCENES.—The New York correspondent of the *Dispatch* gives an affecting account of the "closing scenes" in the lives of two characters who have been, at one time, eminent in their way. Of the death of Mr. BARRETT, distinguished as "Gentleman GEORGE," he writes:

"That word 'poverty' reminds me that poor 'Gentleman George' of the drama is no more. Geo. H. Barrett was a glorious fellow in his time, and many thousands of dollars has he received during his professional life, (for he played, as a child, Cora's infant in 'Pizarro,' at the Federal Street Thertre, in Boston, and came out, at twelve as Young Norval, here, at the Park;) but who shall tell the privations he silently endured? who picture the anguish of his sensitive feelings, as he gasped away his life, sometimes in actual want, and rarely in the possession of the commonest domestic comforts? When the Dramatic Fund was compelled by its bad management to curtail its annuities, Barrett was thrown, with his interesting family, almost entirely upon the kindness of his friends. They were not forgetful; but even the best of friends must fail to realize the manifold needs of the sick, the aged, the disheartened, the peculiar sufferings which none can feel except those who, accustomed to a florid existence, are tied down in the frost-time of life to food both coarse and scant, while the Demon of Despair is tugging at their hearts, and Sickness is racking with pain every bone and sinew."

Of poor Lola Montez, we have this sad picture:

"Lola Montez is stopping at Astoria with a kind friend, but, alas! in what a condition of body and mind! She is not exactly an imbecile, and yet what term will more clearly express her mental helplessness? Physically she is an invalid of a melancholy description. A female friend of mine saw her a day or two ago, and it was enough to make one's heart bleed to note her picturesque limnings of the wonderfully changed woman. Lola was costumed in a half night and a half morning robe, and she sat in a pretty garden, her hollow cheeks sunken eyes, and cadaverous complexion forming a remarkable contrast to the gay flowers. She was unable to utter an intelligible word, except spasmodically, and after repeated efforts. Her mouth was frothing, like that of one in partial convulsions; and she was unconsciously wiping it, as little boys do, by drawing it across the sleeve of her dress. In fact, she had the strange, wild appearance and behavior of a quiet idiot, and is evidently lost to all further interest in the world around her, and its affairs. And so ends her eventful history! What a study for the brilliant and thoughtless! What a sermon on human vanity!"

THE terrible calamity by which the lake steamer Lady Elgin, Capt. John Wilson, was suddenly engulfed as in a moment, with more than three hundred passengers, is an event positively appalling. Little did the writer of these lines, when conversing with Capt. Wilson on the heights of Fort Mackinac less than one month ago, on a bright summer morning—while the beautiful steamer lay on the placid water below, throwing off wreaths of white steam, and thronged with blithesome seekers of health and pleasure—little did he imagine that so soon that boat and her commander, so sturdy and so animate with life, would together be submerged low beneath the waves. With them have gone many noble spirits, from whom the world was not ready to part. Let those who survive heed the solemn monition.—*New York Journal of Com.*

TESTIMONIAL TO THE FAMILY OF THE LATE CAPT. WILSON.—That our citizens may know what our neighbors in Buffalo are doing, we copy the following from the Buffalo *Republic* of Thursday evening:

"We are gratified to observe the alacrity with which our commercial men on the dock and our citizens generally respond to the call to contribute some testimonial to the family of the noble hearted and true sailor, the late Jack Wilson, of the ill-fated *Lady Elgin*. A subscription was started this morning headed by A. A. Eustaphieve, Esq., for the Buffalo Mutual Insurance Company, with $100, Capt. E. P. Dorr, in his individual capacity, $25, and a lot of other names, a mounting to nearly $400. The paper had only been circulated a little while, and from the liberality of those already called upon, we have no doubt a creditable sum will be raised in this city."

MURDER.—Just as we go to press we learn that an old gentleman by the name of John Wilson, living all alone, about a mile this side of Dartford, was found dead this morning in his barn. His skull had been fractured by a hammer which lay near him, and his body dragged to the middle of the barn floor, his limbs decently composed, and his arms folded over his breast. He was between 70 and 80 years of age, and was supposed to have had money in his house. An inquest will be immediately held.—*Ripon Times, Sept. 14th.*

CAN IT BE?—Among the names of the lost on the *Lady Elgin* whose bodies have been recovered, occurs that of "T. Slaughter, colored man." Can it be that of the Tom Slaughter so prominent here once in sensation items?

P. S.—We have been told, since the above was in type, that the body referred to is that of the veritable Thomas, and that it is to be buried here.—*Detroit Advertiser.*

FALLING STARS AND AURORAS.—It is well known that one of the two great periods of the year at which a considerable number of falling stars are perceived, apparently issuing from the regions of Leo and Perseus, is that comprised between the 1st and 15th of the present month. The Academy of Sciences has now received a communication from COULVIER GRAVIER on the subject; from which it appears that from the 13th of July to the 12th of August, the number of these meteors observed by him amounted to 507, of which no less than 174 fell on the 9th, between 9 1 1 2 P. M. and 45 minutes past midnight; on the 10th the number was 181, and on the 12th, 46.

On the 13th of July the average number per hour was two and a half; on the 9th of August, 62; on the 20th, 54; and the 12th, 25. The general average of the 9th, 10th and 11th is this year 52-2, being more than last year. It had been observed during the last few years that the average had been decreasing; this year seems to indicate the commencement of an increasing series.—Should this be borne out by further observations in subsequent years it will be ascertained that the average number of falling stars in August follows a law of alternate increase and decrease. Notwithstanding the unfavorable state of the weather, M. COULVIER GRAVIER was enabled to observe three successive auroras on the nights of the 9th, 10th, and 11th inst., a fact which goes far to confirm the opinion of some meteorologists, that the phenomenon of the falling stars is intimately connected with the appearance of the aurora borealis. The first of these auroras lasted from half-past 9 P. M. to 11, and occupied an arc of 45 degrees in the heavens, from Capella to Lambda Ursæ Majoris. The altitude of the arc was 20 degrees at its maximum. The aurora of the 10th lasted from a quarter past 9 P. M. till 2 o'clock past midnight, comprising an arc of 100 degrees, with a maximum altitude of 45 degrees, and extending from Capella to Zeta of Bootes. Lastly, the aurora of the 11th comprised an arc of not less than 120 degrees, extending as far up as the Polar star, and spanning the sky from Arcturus to Iota of Auriga. As the aurora was this time veiled by cirrous clouds, M. COULVIER GRAVIER concludes that the region in which auroras are formed lies necessarily beyond the region of that kind of clouds.

SUNDAY SCHOOL CONVENTION.—The Wisconsin Sunday School State Convention will assemble in the Plymouth Church, at 3 o'clock this afternoon. Delegates from the country will report themselves to the committee in attendance at the Church, who will provide places for their entertainment during the sitting of the Convention. The evening session will commence at half-past seven o'clock, when discussion of some practical Sunday School questions or addresses may be expressed.

BADGER STATE BILL POSTER.—Mr. Z. T. PIERCE, the well-known individual who disseminates useful and pleasing information among the masses in regard to the goings on in the world of amusement, has taken up his quarters in the SENTINEL Building, where he may be found at seasonable hours, ready to attend to business in his own expeditious and clever way. To any young man wishing to get posted about Milwaukee we would say, call on PIERCE.

CHANGE IN THE FIRM.—In consequence of the death of PIERCE, one of the passengers on the ill-fated *Lady Elgin*, Messrs. GOODMAN & BUEL will henceforth conduct the business of the late firm. Almost every one knows the establishment on Wisconsin st., where Camphene, Burning Fluid and every description of lamps are for sale.

THE FUNERAL of MARTHA J. MCCORMICK will take place to-day, at 2 o'clock P. M., from the house, corner of Main and Detroit streets.

The friends of the family are invited to attend.

THE REDOUBTABLE BRICK POMEROY is in town. We saw something shining all the morning, but it was some time before we discovered what it was. We understand he is on his way to meet the Prince, and prevail upon him to visit La Crosse and the *Union* office.

THE New York *Illustrated News* contains graphic pictures of the wreck of the *Lady Elgin*, and also a picture of the struggle of Mr. EVISTON to save his wife. It is for sale by TUNIS & Co., on Wisconsin street.

THERE WERE twenty-nine bodies brought up yesterday, most of whom were recognized. The Shields Guards, from Chicago, were also in town yesterday, to assist in the funeral obsequies.

GODEY FOR OCTOBER.—TUNIS & Co. have Godey's Magazine for October. It is handsomely illustrated, and contains several unusually interesting papers, besides a mass of matter relative to ladies' "fixins."

HARRY POTTER, the Wizard and Ventriloquist, will give an exhibition for the benefit of the sufferers of the late calamity, at Stamm's Hall, on Tuesday evening, 18th inst.

MARY M. CLARK, of Milwaukee, secured the third premium, (a purse of $46,) for equestrianism, at the Walworth County Fair recently.

MISSIONARY SERMON.—The Rev. Mr. THOMAS ALLEN, late Missionary to Birmah, preached on Sunday last in this city, at the First Baptist Church in the morning, and at the Second Babtist, (Rev. Mr. JACKSON,) in the evening, on the subject of "Foreign Missions."

We had the pleasure of listening to his evening discourse, and seldom have we heard this usually considered dry theme treated with such stirring earnestness and genuine ability. The speaker chained the attention of his auditors throughout a long service, and often had his whole audience in tears.

If all our Missionaries to heathen lands are only as live, practical, and common sense men as Mr. ALLEN, the work of evangelizing the idolaters can but be hastening to a rapid consummation.

SERMONS LAST SABBATH.—A very impressive sermon was preached at the First Presbyterian Church on Sunday, by the Rev. W. H. SPENCER, of Chicago, from the text to be found in Matthew 10: 31 and 32. His reference to the present calamity was touching and appropriate.

Rev. Mr. LOVE, of the Spring Street Congregational Church, preached in reference to the *Lady Elgin*, from the text:

"Boast not thyself of to-morrow; for thou knowest not what a day may bring forth.

"For the sea hath spoken, even the strength of the sea.

"I know that whatsoever God doeth it shall be forever; nothing can be put to it, nor anything taken from it; and God doeth it that men should fear before him." Prov. 27: 1. Isa. 23: 4. Eccl. 3: 14.

RESOLUTIONS OF THE TYPOGRAPHICAL UNION.—At a meeting of the Typographical Union, held at their hall on Saturday evening, the following resolutions were adopted:

WHEREAS, By the fearful disaster which occurred on Lake Michigan Saturday, the 8th inst., we have lost a worthy brother and fellow-craftsman, therefore, be it—

Resolved, That this meeting deeply deplore the fate of Mr. Alexander Corbitt, and that in him the Union has lost a faithful and active member.

Resolved, That we tender our heartfelt sympathies to the widow and relatives of the deceased in this distressing calamity, assuring them that they are not alone in their sorrow, and that there is not one among us, who did not highly esteem him, and who does not deeply deplore his loss.

Resolved, That our hall be draped in mourning, and that the members of the Union wear a crape badge on the left breast for the next thirty days.

Resolved, That a committee be appointed to take charge of the body, in case it should be found, and see to its proper burial, and that the members of the Union attend the funeral in a body.

Resolved, That a copy of the above resolutions be forwarded to the Widow and Father of the deceased, and published in the city papers, and also in *The Printer*, New York.

JAMES KERR,
JOS. YEWDALE,
HENRY TREYSER,
Committee.

MEETING OF THE ASSOCIATED MILITARY OF MILWAUKEE.—At a meeting of this association, the following preamble and resolutions were unanimously adopted:

WHEREAS: The citizens of Milwaukee, generally, and more especially the military, have suffered severely by the loss of the ill-fated Lady Elgin; and

WHEREAS: We, as citizen soldiers, deem it our duty, not only silently to mourn with the afflicted, but to render the surviving widows and orphans of our late brothers in arms all the aid possible; therefore

Resolved, That the proceeds of the contemplated military pic-nic and ball be appropriated to the relief of the widows and orphans of the deceased soldiers, instead of therewith building a Battalion Armory, as at first entertained; and that said pic-nic and ball be postponed to Thursday, the 27th inst.

Resolved, That we entertain the most abiding sympathy for the families and friends of the deceased, and shall ever as now use our best efforts to alleviate their sufferings.

JNO. L. DORAN, }
E. F. HERZBERG, } Committee.

The doings of the Committee are open to public inspection, and the Committee will be happy to receive information or suggestions from any person feeling an interest in the business with which it is charged.

By order of the Committee.

ANDREW MULLEN, } Sec'ys.

CONTRIBUTIONS TO THE RELIEF FUND.—The undersigned has received a letter from the village of Horicon containing a draft for fifty dollars, as a contribution to the fund for the relief of the sufferers by the loss of the *Lady Elgin*. The generous donor withholds his name, and signs himself "A Friend of the Suffering."

I have also received, for the same object, ten dollars from Badger State Lodge of Good Templars of this city.

H. L. PAGE, Treasurer.
Milwaukee, Sept. 15th, 1860.

RELIEF FOR THE SUFFERERS.—I acknowledge the receipt of fifty dollars from J. J. SANDS, of the "Columbian Brewry," Chicago, to the fund for the relief of the sufferers by the loss of the steamer *Lady Elgin*.

PRONUNCIATION.—Some people call it *Bam*; others, *Bom* or *Baum*; but all who have tried it, pronounce GUERNSEY'S Balm to be the best and in fact the only reliable external remedy. It costs but 25 cents per bottle. deottw1t

PROOF OF THE PUDDING IS IN EATING it, and to know the real merits of a medicine is to test it by giving it a fair trial. Every one troubled with humors that arise from impure blood should lose no time in testing the merits of Dr. Weaver's Canker and Salt Rheum Syrup and Cerate.

SHERRY WINE BITTERS.—IT IS THE best Medicine ever used for Spring and Summer complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout the North-eastern States during the past thirty years. Read the following:

VAN WERT, O., July 26th, 1858.

DEAR SIR:—Having sold "Dr. Richardson's Sherry Wine Bitters" for the last two years, I most respectfully recommend it to the notice of Dyspeptic persons, and all persons who require a stimulating medicine. D. K. GALLEHERS, M. D.

The Sherry Wine Bitters are for sale by Greene & Button, John H. Tesch, C. H. Gardiner & Co., Lafayette Lake, and druggists generally in Milwaukee and the State. sept18j950d1awwlm

To every barrel of Flour you can make thirty pounds more Bread or Biscuit (and much better) by using Herrick Allen's Gold Medal Saleratus, than by yeast fermentation or by any other Saleratus. It is perfectly healthy, will not turn your cookery yellow, will strengthen weak stomachs, and cure dyspeptic persons. It is much better to use with cream tartar than soda. Try one paper, and you will be convinced. Most of the Grocers sell it.

We would say to our lady and gentlemen friends visiting Milwaukee, that one of the greatest conveniences we have is the Commercial Dining Rooms, on East Water St., opposite Nazro's hardware store, where a good meal can be procured any time day or night, in private rooms, and to cost according to the appetite; from 10 to 40 cents. The ladies can run in with bonnets and shawls on and get what they want to eat, and be ready to go about their shopping again in ten minutes time. ESTABLISHED IN 1847.
CITY AUCTION ROOM.

I AM NOW SETTLED IN MY NEW store, corner of Wisconsin and Main Streets, (Young's Block) a few doors below the Post Office. I have taken this location because I think it preferable for the auction business to any other in the city. Thousands of people pass the corner where I now am, which pass no other in the city; for it is well known that every person goes to the Post-Office. I call upon all who have any Dry Goods, Boots and Shoes, Furniture, or Apples, or anything whatever, that they want to dispose of at auction, to send it to my auction room. I will use all my energy to dispose of all goods consigned to me to the best advantage, and prompt returns will be made. I have been engaged in the auction business in this city for thirteen years, and I have tried to do what is right unto all.

I also continue my Land Agency business. My office is in the rear of my store, entrance on Main st. I will attend to all sales of Real Estate either at public or private sale. I will make exchange of real estate with all who want to exchange. Any who have goods to exchange for good real estate in the city or country, I can always get them up a good trade and some money with it; probably there was never a better time to invest in real estate than the present. Prices of lots in our city are very low; lands adjoining our city are exceedingly low, compared to prices four years ago, but these low prices will not last long, and it is generally believed by all who have lived as long in the West as I have, that next spring will see a sudden rise in real estate throughout this city and country.

This is the time to secure you a good homestead. Now is the time to make investments. I call upon all who have property to dispose of to leave a list of the same with me. I keep a register expressly for that purpose, which will be exposed to the inspection of all, from day to day. I shall keep myself posted in real estate, from day to day, as I have done for the last ten years, and will be happy to give information to all who may wish it.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season, and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character.

Immediate notice of these appointments should be given by the Republican clubs at the several places designated.

A GOOD EXAMPLE.—While the DOUGLAS State Convention was in session in New York, they received a telegraph despatch from the notorious SPINOLA, of Brooklyn, who was stumping Maine at the time, assuring them that the Douglasites were certain of carrying the State. This great news threw the convention into an ecstacy of delight, and an answer was promptly returned to SPINOLA, pledging themselves that New York should *"follow the example of Maine."* But as Maine has refused to make good the promise of SPINOLA, we have no doubt the New York Douglasites will make an excuse for *attempting* to violate their pledge. At any rate they are not to be trusted, for they have never yet been known to keep their promise or act in good faith. The Republicans, therefore, must rely upon their own efforts to see that New York follows the example of Maine.

THE CHARLESTOWN (Va.) *Democrat* has a column in a late issue, headed as follows:

> "TREASON! TREASON!!
> Rank, Foul, Unmitigated, Damnable Treason!
> Stephen Arnold Douglas Selling the
> Democratic Party of the South
> to the Black Republican
> John Brown Party
> of the North.
> THE EVIDENCE COMPLETE!!"

If the evidence is complete, get out a requisition for him, and put him on trial at once. It may be difficult to find him after the 6th of November.

THE PLEASURE MR. BRECKINRIDGE ANTICIPATES.—The following sentence breathing with prophecy, occurs in Mr. Breckinridge's speech at Lexington:—*"I look forward with pleasure to the prospects I have of serving my country in the Senate of the United States for the next six years."—Lockport Union.*

If Mr. DOUGLAS does not get the gout, or any of the numerous other ills that afflict him—when there is any good thing to be done, he may look forward with equal pleasure to his services during the remainder of his present term, and then to retiring from public life.

THE SYRIAN MASSACRES are effectually quelled at last. FUAD PACHA, the Turkish Minister, is punishing the murderers of the Christians with that speedy and bloody retribution which is characteristic of Mussulman rule.

A hundred and eighty of the wretches were executed in Damascus almost simultaneously. It is said to have "struck terror," as well it might.

The French Troops have landed, but the knowledge of their coming has already accomplished the purpose for which they were sent. They will only have to occupy instead of conquer.

The destitution of the Christians, however, remains. Peace is restored, but not their lost homes, property, and kindred.—The contributions for their relief are beginning to be distributed, and are doing great good.

The Committee in New York announce the receipt in all over $13,000, and say that double the amount can be well employed.

IMPROVING ON THE CREATOR.—Gen. Orville Clark, of Sandy Hill, New York, addressed the Douglasites at a place called the Ranche, in that vicinity, a short time since. In the course of his speech he said:

"The principle of self-government is one dear to every American. In devotion to it was the country settled. Our forefathers left a land of tyranny and oppression for one where they could have a church without a bishop—a government without a king; where the people should be their own bishops and their own kings. They settled on the bleak shores of the Atlantic, in a land without laws, and solemnly resolved that they would be governed by the laws of God, *until they had time to make better ones.*"

IT IS STATED that an old officer, a soldier of the war of 1812, who was dismissed from the Boston custom house, last week, because of his attachment to Douglas, had paid an assessment of $30 out of his salary, only the day before, to sustain the Breckinridge party. That was too mean. It was as bad as to sentence a man to be hung and pay forty shillings.

AMONGST the Democrats of Allegheny county, Pa., who have gone over to Lincoln, the Pittsburgh papers give the names of over one hundred prominent gentlemen. The name of the Hon. George F. Fillmore, formerly editor of the Pittsburgh *Post*, a Democratic journal, appears in the list.

ONE HUNDRED bogus votes were kept out of the Ballot-Boxes at Portland, Me., through the vigilance of the Wide-Awakes. The fellows were on the lists, but dared not face the determined challenges which they knew would meet them.

BAYARD TAYLOR presided over an immense Republican meeting at Chadd's Ford, Pa., on Wednesday last. The Hon. John Sherman, of Ohio, made a masterly speech.

AT A LATE Republican meeting at Amesbury, Mass., the poet Whittier offered a series of resolutions.

The late Herbert Ingram, Member of the British Parliament, and Proprietor of the Illustrated London News.

We are indebted to Mr. John Cassell, the enterprising publisher of various illustrated works, for the following brief biographical notice of the late Mr. Ingram:

"The lives of those who, by industry, patience, and perseverance, have achieved for themselves an honorable position in the world, furnish material for biographical sketches which are at once interesting and instructive to our readers. All, indeed, who are conversant with the history of nations are aware of the fact, that the most important discoveries, and the most valuable inventions which have conferred happiness on many, and promoted the welfare of all, have been the achievement of men of limited means and scanty leisure—of men, indeed, who have, in a great degree, been self taught Men so circumstanced have displayed that perseverance which is the master impulse of the loftiest minds—which is the proof of the discipline of that noblest of virtues, self-control, and which guarantees the acquisition of qualities invigorating in their use, and inestimable in their worth.

The subject of our sketch may be very properly included in the class of men to whom we have alluded. Associated with a journal, of which he was the proprietor, he held a prominent position in society, *and before the world*. In creating, sustaining and establishing, on its present footing, such a work as the *Illustrated London News*, he himself the originator of a new era in literature and art; and became, through the immense circulation of that journal, one of the world's benefactors.

The late Herbert Ingram was a native of the town which he had the honor to represent in the British Parliament, Boston, Lincolnshire—his family having resided in the neighborhood of that city for generations, as is recorded in "Thompson's History of Boston." In the family of the subject of our memoir a good custom has been kept up of calling the eldest son Herbert, and the honorable member for Boston is lineally the seventh who has borne that name. He was born on the 27th of May, 1811, and is, consequently, in his fiftieth year. His early years were spent in his native town, and there he was apprenticed to the printing business.—After completing the term of his indenture he removed to Nottingham, where he carried on business as printer, bookseller, and news agent. In alluding, at an annual dinner, in London, of the Newsvenders' Benevolent and Provident Institution, to this circumstance, Mr. Ingram said: "He knew very well what hard work a newsvender had in carrying on his business, at all hours and in all sorts of weather. He had been a newsvender himself, and he believed that when he was at Nottingham, there was not a man in the whole kingdom, more industrious than himself. As one instance, he might mention, that there was among his customers a gentleman who wanted his paper very early; and he (Mr. Ingram) was so anxious that this gentleman should not be disappointed, that he walked five miles (and of course five miles back) to supply a single paper. On one occasion he got up at two in the morning, and traveled to London to get some copies of a paper, because there was no post to bring them, being determined that his customers should have the paper." His industry had its reward, for he sold above 1,000 copies of that paper in Nottingham alone. That was not the only reward of his exertions.

It was from the experience he had as a newsvender, and in the sale of those very papers, that he thought of the journal with which, up the period of his death, he was connected. He used to notice that even a very bad wood cut in an odd number of a paper would make it sell more than usual; and it occurred to him that if they had a number of good engravings, and put them in every paper, a paper conducted on such a principle must succeed. Such was the origin of Mr. Ingram's paper; and, whatever its present condition, it is simply owing to Mr. Ingram's immediate connection with the news trade. The very title was suggested by the fact that many of his customers, especially the more illiterate, would come and ask for the "*London News*;" they did not care whether he gave them the *Dispatch* or *Bell's Life*, or anything else, so long as it contained the London news: so he thought if the name suited common people, it would suit all classes, and he called his paper the *London News*, putting *Illustrated* before it on account of its pictures.

The first number of the *Illustrated London News* appeared in May, 1842; and it is interesting to trace the gradual improvements introduced, from the somewhat rough wood cuts, to those splendid specimens of oil color printing—one of which, a magnificent view of the Falls of Niagara—was issued with a very recent number of that paper.

Mr. Ingram's long and successful connection with a journal so widely circulated, made him, to all intents and purposes, a public man; therefore, on the retirement of Sir Gilbert Heathcote, from the representation of Boston in Parliament, Mr. Ingram presented himself as a candidate for his native town. There were two other candidates; one retired before the election, the other went to the poll, but Mr. Ingram was returned by an overwhelming majority, viz: 521 to 296. What rendered Mr Ingram so popular was the fact that he was born in the town, that he had risen to the position which he occupied by his own unaided efforts, and that he took a lively interest in everything that appertained to the moral, intellectual, sanitary, and commercial advancement of his native place, Boston, with all its advantages, natural and acquired, was, nevertheless, deprived of that greatest of sanitary blessings, pure water; and the inhabitants were, in consequence, much afflicted with ague. Through the exertion of Mr. Ingram, they are abundantly supplied with the purest water, and Boston is now reckoned one of the healthiest towns in England. Much, however, as the inhabitants were beholden to him for the establishment of the waterworks, they owe him, as the principal promoter of the Boston and Nottingham railroad, of which he was the chairman, a deep and lasting debt of gratitude. He was also a director of the Great Eastern S. S. Company, and he and his lady were on board the monster ship when the unfortunate explosion took place on the "trial trip."

On the occasion of his election, and while he was addressing the people from the balcony of his committee-room, it was mentioned to him that a number of boys were looking up and listening with interest to what was going on. Mr Ingram stopped in the midst of his speech, and looking down at these lads, said, "I well remember standing like you, on several occasions like this, listening to the successful candidate returning thanks to his constituents, and little did I think that I should one day occupy the same proud and honorable position as the elected member for Boston; and you, boys, cannot tell to what you may attain, if you are good, honest, upright, industrious, and persevering in your various occupations." It was by such touches of nature as these that Mr. Ingram became so popular at Boston, more especially with the humbler classes of electors. In returning thanks from the hustings, he spoke of the honorable pride which he felt in returning thanks to the inhabitants of his native town, and in returning those thanks on the very spot upon which the house formerly stood in which he was born. At the last election, after the dissolution of Parliament, Mr. Ingram was returned for Boston, without opposition. He was also a magistrate for the county of Herts and Deputy Lieutenant for the county of Lincoln.

It remains for us simply to state, that the subject of this brief memoir, as well as his eldest son, Herbert, were drowned on board the Lady Elgin steamer, on Lake Michigan, and that Mr. Ingram has left a widow, seven children, and a large circle of admiring friends to deplore his untimely fate. In his death, the press has lost one of its ablest coadjutors—the public, a benefactor—and the poor, a friend.

FUNNY BLUNDERS.—The Philadelphia *Inquirer* of Tuesday, contains quite a long report of a visit to Professor Barlincourt Lowe's big balloon. The report is of the sensation order, and contains two funny blunders. First, we have a statement that the balloon has a lifting power of twenty-two and a half tons; and a subsequent to the effect that about *seven hundred tons* of ballast are required to steady the monster! Again, the writer says, that the life-boat attached is three feet deep, six feet wide, and twenty-four feet long, and draws, light, only thirty-eight inches—or two inches more than its depth. Lowe must have entertained the author of this sketch with something stronger than water.

A WISE DECISION.—The colored people of Western Canada wished to deliver an address to His Royal Highness the Prince of Wales—but it was declined, because "it would present them in a separate and distinct light from the rest of the population." Upon this conclusion the St. Catherines *Constitutional* remarks:—"Had the advisers of the Prince taken the same stand throughout the Province, and not recognized other bodies, or allowed them to present themselves 'in a separate and distinct light from the rest of the population,' we think the unfortunate occurrences that have transpired at Kingston, Belleville, and other places, would have been avoided." So say we all.—*Pilton Times.*

THE BEDFORD (Ind.) *Independent* says that after the close of a debate between Dunn and Daily, in one of the townships of that county, five democrats declared they meant to vote for Lincoln and Dunn.

HAPPINESS must arise from our own temper and actions, and not immediately from any external conditions.

OBSTRUCTING HORSE RAILWAY CARS.—A case was recently decided in the Mayor's Court, of Pittsburgh, involving a question similar to that previously decided in the Massachusetts Supreme Court with regard to the relative rights of horse cars and common vehicles in the streets. Mayor Wilson delivered his opinion against the railway company upon the following grounds:

First. It does not appear from the evidence taken, as a whole, that the defendant was prompted by any malice, or that he willfully and knowingly entered upon said rails with a view to obstruct the same.

Second. It does not appear that the signal of the car driver was given in time to enable the defendant to drive off the track without great sacrifice of time and labor.

Thirdly. It never was the intention of the Legislature, in granting the right of way to the railway company, to deprive private citizens of their rights, or to interfere with the same; and if, in the exercise of our lawful rights in the reception of the necessaries of life at our own doors, the cars are obstructed for a few moments, it must be shown to have been done willfully and maliciously, to make the defendant liable.

THE LONDON TIMES of a recent date has the following paragraph: "Our readers will remember the case of Mrs. Putnam, a lady of color, whose treatment on board the *Europa* mail packet, on her passage to England from America, in November, 1859, was the subject of a correspondence with Sir Samuel Cunard, which appeared in our colums. In a letter, received within the last few days, Mrs. Putnum writes that she and her party, during the whole passage to the United States, on her return voyage by the *Arabia*, were admitted to all the rights and privileges of first class passengers, without opposition on the part of any one, even though slaveholders were on board, or any failure in that courteous treatment which was their due. She speaks also of the polite and kind attention of some of her fellow-passengers. It is possible, therefore, for the Directors of the Cunard Company so to instruct the captains of their vessels as to insure to all persons the full enjoyment of their purchased accommodation, while under their care, and to preserve the official flag of her Majesty's mail packets from being dishonored by subserviency to the unrighteous prejudices of foreigners."

OF THE NUMEROUS missing ships which are from time to time noticed, many, it is believed, were destroyed by fire at sea, thro' the ignition of lucifer matches, or some other combustible goods, which had been shipped on board. Two instances of lucifers spontaneously igniting were recently reported at the English Lloyds. The ship *Fiel*, loading for Havana, in St. George's Dock, Liverpool, was discovered to be on fire. It was traced to a case of lucifer matches that had been surreptitiously shipped on board. The case, in a state of ignition, was got up and thrown overboard. Another instance of the dangerous character of such shipments took place at Fresh Wharf, London bridge. A case intended for one of the steamers loading at the wharf, was being carried down from a cart, when it fell on the ground and instantly burst into flames. The case proved to contain lucifers and congreves. Had these vessels sailed for sea with these inflammable stores, it is probable that the most disastrous consequences would have ensued. It behoves Lloyds to prosecute in all these cases, the character of the shipments being misrepresented.

A SMART BOY TWELVE YEARS OLD SAVING HIS BROTHER'S LIFE.—Samuel Ewing, a boy three years old, the son of Mr. Daniel Ewing, Harrison township, Licking county, Ohio, fell into a well 23 feet deep, twelve feet to the surface of the water, and the water eleven feet deep. A rotten board broke under his feet. His mother heard him falling, ran out, and there he was struggling on the surface of the water, but soon sunk. His brother, Jesse, a boy 12 years old, got down after him, stepping on the stones each side the well, three feet in breadth.

The little boy came up to the surface of the water, and his brother laid his hands around his neck, placed one arm around the little boy's waist, and with the other hand, tied a long strap that their mother dropped down to them, under his brother's arms, and Mrs. Ewing pulled him up safe. Jesse then stepped up safe. After both came up, and the excitement was over, Mrs. Ewing was so weak that she was hardly able to walk. Mr. Ewing was not at home.

GRAND CHANCE TO SECURE A HOME upon such terms that any one who has any industry can do it. Mr. Glidden, who owns one-half of Lockwood & Glidden's Addition, has made me his agent, to sell his lots in said Addition, at unusually low prices, to any one who will improve them, and upon such terms that any one can meet the payments. It is unnecessary to go into argument to convince one who has any judgment that this property, which is situated in the First Ward, must, and will be the most desirable residence property in the city of Milwaukee. It is in full view of the Lake and on high ground which overlooks the city, and a more healthy situation cannot be found. Its location for business men is very desirable, the Horse Railroad passing through it every fifteen or twenty minutes. Much more could be said about this valuable property, but we will only say, any persons who have any desire to purchase any of said Lots, if they will call at my office they can see a map, and I will go with them and show them the Lots, and they can judge for themselves. The terms on which said Lots will be sold are as follows: Ten per cent. in twelve months; 15 per cent. in two years; and 25 per cent. every year thereafter until the amount is paid, with interest at the rate of 7 per cent. per annum, interest not to commence until six months after the date of purchase. Here is a chance never before offered, and there is every reason to believe that this property will advance 100 per cent. in less than twelve months. The great advantage of the Horse Railroad must, and will make it very desirable. The Lots are free from all encumbrances whatever. Certificate of title will be furnished to any one who may purchase.

Immediate notice of these appointments should be given by the Republican clubs at the several places designated.

A GOOD EXAMPLE.—While the DOUGLAS State Convention was in session in New York, they received a telegraph despatch from the notorious SPINOLA, of Brooklyn, who was stumping Maine at the time, assuring them that the Douglasites were certain of carrying the State. This great news threw the convention into an ecstacy of delight, and an answer was promptly returned to SPINOLA, pledging themselves that New York should "*follow the example of Maine.*" But as Maine has refused to make good the promise of SPINOLA, we have no doubt the New York Douglasites will make an excuse for *attempting* to violate their pledge. At any rate they are not to be trusted, for they have never yet been known to keep their promise or act in good faith. The Republicans, therefore, must rely upon their own efforts to see that New York follows the example of Maine.

THE CHARLESTOWN (Va.) *Democrat* has a column in a late issue, headed as follows:

"TREASON! TREASON!!
Rank, Foul, Unmitigated, Damnable Treason!
Stephen Arnold Douglas Selling the
Democratic Party of the South
to the Black Republican
John Brown Party
of the North.
THE EVIDENCE COMPLETE!!"

If the evidence is complete, get out a requisition for him, and put him on trial at once. It may be difficult to find him after the 6th of November.

THE PLEASURE MR. BRECKINRIDGE ANTICIPATES.—The following sentence breathing with prophecy, occurs in Mr. Breckinridge's speech at Lexington:—"*I look forward with pleasure to the prospects I have of serving my country in the Senate of the United States for the next six years.*"—*Lockport Union.*

If Mr. DOUGLAS does not get the gout, or any of the numerous other ills that afflict him—when there is any good thing to be done, he may look forward with equal pleasure to his services during the remainder of his present term, and then to retiring from public life.

THE SYRIAN MASSACRES are effectually quelled at last. FUAD PACHA, the Turkish Minister, is punishing the murderers of the Christians with that speedy and bloody retribution which is characteristic of Mussulman rule.

A hundred and eighty of the wretches were executed in Damascus almost simultaneously. It is said to have "struck terror," as well it might.

The French Troops have landed, but the knowledge of their coming has already accomplished the purpose for which they were sent. They will only have to occupy instead of conquer.

The destitution of the Christians, however, remains. Peace is restored, but not their lost homes, property, and kindred.—The contributions for their relief are beginning to be distributed, and are doing great good.

The Committee in New York announce the receipt in all over $13,000, and say that double the amount can be well employed.

IMPROVING ON THE CREATOR.—Gen. Orville Clark, of Sandy Hill, New York, addressed the Douglasites at a place called the Ranche, in that vicinity, a short time since. In the course of his speech he said:

"The principle of self-government is one dear to every American. In devotion to it was the country settled. Our forefathers left a land of tyranny and oppression for one where they could have a church without a bishop—a government without a king; where the people should be their own bishops and their own kings. They settled on the bleak shores of the Atlantic, in a land without laws, and solemnly resolved that they would be governed by the laws of God, *until they had time to make better ones.*"

IT IS STATED that an old officer, a soldier of the war of 1812, who was dismissed from the Boston custom house, last week, because of his attachment to Douglas, had paid an assessment of $30 out of his salary, only the day before, to sustain the Breckinridge party. That was too mean. It was as bad as to sentence a man to be hung and pay forty shillings.

AMONGST the Democrats of Alleghany county, Pa., who have gone over to Lincoln, the Pittsburgh papers give the names of over one hundred prominent gentlemen. The name of the Hon. George F. Fillmore, formerly editor of the Pittsburgh *Post*, a Democratic journal, appears in the list.

ONE HUNDRED bogus votes were kept out of the Ballot-Boxes at Portland, Me., through the vigilance of the Wide-Awakes. The fellows were on the lists, but dared not face the determined challenges which they knew would meet them.

BAYARD TAYLOR presided over an immense Republican meeting at Chadd's Ford, Pa., on Wednesday last. The Hon. John Sherman, of Ohio, made a masterly speech.

AT A LATE Republican meeting at Amesbury, Mass., the poet Whittier offered a series of resolutions.

The late Herbert Ingram, Member of the British Parliament, and Proprietor of the Illustrated London News.

We are indebted to Mr. John Cassell, the enterprising publisher of various illustrated works, for the following brief biographical notice of the late Mr. Ingram:

"The lives of those who, by industry, patience, and perseverance, have achieved for themselves an honorable position in the world, furnish material for biographical sketches which are at once interesting and instructive to our readers. All, indeed, who are conversant with the history of nations are aware of the fact, that the most important discoveries, and the most valuable inventions which have conferred happiness on many, and promoted the welfare of all, have been the achievement of men of limited means and scanty leisure—of men, indeed, who have, in a great degree, been self taught. Men so circumstanced have displayed that perseverance which is the master impulse of the loftiest minds—which is the proof of the discipline of that noblest of virtues, self-control, and which guarantees the acquisition of qualities invigorating in their use, and inestimable in their worth.

The subject of our sketch may be very properly included in the class of men to whom we have alluded. Associated with a journal, of which he was the proprietor, he held a prominent position in society, *and before the world.* In creating, sustaining and establishing, on its present footing, such a work as the *Illustrated London News*, he himself the originator of a new era in literature and art; and became, through the immense circulation of that journal, one of the world's benefactors.

The late Herbert Ingram was a native of the town which he had the honor to represent in the British Parliament, Boston, Lincolnshire—his family having resided in the neighborhood of that city for generations, as is recorded in "Thompson's History of Boston." In the family of the subject of our memoir a good custom has been kept up of calling the eldest son Herbert, and the honorable member for Boston is lineally the seventh who has borne that name. He was born on the 27th of May, 1911, and is, consequently, in his fiftieth year. His early years were spent in his native town, and there he was apprenticed to the printing business.—After completing the term of his indenture he removed to Nottingham, where he carried on business as printer, bookseller, and news agent. In alluding, at an annual dinner, in London, of the Newsvenders' Benevolent and Provident Institution, to this circumstance, Mr Ingram said: "He knew very well what hard work a newsvender had in carrying on his business, at all hours and in all sorts of weather. He had been a newsvender himself, and he believed that when he was at Nottingham, there was not a man in the whole kingdom, more industrious than himself. As one instance, he might mention, that there was among his customers a gentleman who wanted his paper very early; and he (Mr. Ingram) was so anxious that this gentleman should not be disappointed, that he walked five miles (and of course five miles back) to supply a single paper. On one occasion he got up at two in the morning, and traveled to London to get some copies of a paper, because there was no post to bring them, being determined that his customers should have the paper." His industry had its reward, for he sold above 1,000 copies of that paper in Nottingham alone. That was not the only reward of his exertions.

It was from the experience he had as a newsvender, and in the sale of those very papers, that he thought of the journal with which, up the period of his death, he was connected. He used to notice that even a very bad wood cut in an odd number of a paper would make it sell more than usual; and it occurred to him that if they had a number of good engravings, and put them in every paper, a paper conducted on such a principle must succeed. Such was the origin of Mr. Ingram's paper; and, whatever its present condition, it is simply owing to Mr. Ingram's immediate connection with the news trade. The very title was suggested by the fact that many of his customers, especially the more illiterate, would come and ask for the "*London News;*" they did not care whether he gave them the *Dispatch* or *Bell's Life*, or anything else, so long as it contained the London news: so he thought if the name suited common people, it would suit all classes, and he called his paper the *London News*, putting *Illustrated* before it on account of its pictures.

The first number of the *Illustrated London News* appeared in May, 1842; and it is interesting to trace the gradual improvements introduced, from the somewhat rough wood cuts, to those splendid specimens of oil color printing—one of which, a magnificent view of the Falls of Niagara—was issued with a very recent number of that paper.

Mr. Ingram's long and successful connection with a journal so widely circulated, made him, to all intents and purposes, a public man; therefore, on the retirement of Sir Gilbert Heathcote, from the representation of Boston in Parliament, Mr. Ingram presented himself as a candidate for his native town. There were two other candidates; one retired before the election, the other went to the poll, but Mr. Ingram was returned by an overwhelming majority, viz: 521 to 296. What rendered Mr Ingram so popular was the fact that he was born in the town, that he had risen to the position which he occupied by his own unaided efforts, and that he took a lively interest in everything that appertained to the moral, intellectual, sanitary, and commercial advancement of his native place, Boston, with all its advantages, natural and acquired, was, nevertheless, deprived of that greatest of sanitary blessings, pure water; and the inhabitants were, in consequence, much afflicted with ague. Through the exertion of Mr. Ingram, they are abundantly supplied with the purest water, and Boston is now reckoned one of the healthiest towns in England. Much, however, as the inhabitants were beholden to him for the establishment of the waterworks, they owe him, as the principal promoter of the Boston and Nottingham railroad, of which he was the chairman, a deep and lasting debt of gratitude. He was also a director of the Great Eastern S. S. Company, and he and his lady were on board the monster ship when the unfortunate explosion took place on the "trial trip."

On the occasion of his election, and while he was addressing the people from the balcony of his committee-room, it was mentioned to him that a number of boys were looking up and listening with interest to what was going on. Mr Ingram stopped in the midst of his speech, and looking down at these lads, said, "I well remember standing like you, on several occasions like this, listening to the successful candidate returning thanks to his constituents, and little did I think that I should one day occupy the same proud and honorable position as the elected member for Boston; and you, boys, cannot tell to what you may attain, if you are good, honest, upright, industrious, and persevering in your various occupations." It was by such touches of nature as these that Mr. Ingram became so popular at Boston, more especially with the humbler classes of electors. In returning thanks from the hustings, he spoke of the honorable pride which he felt in returning thanks to the inhabitants of his native town, and in returning those thanks on the very spot upon which the house formerly stood in which he was born. At the last election, after the dissolution of Parliament, Mr. Ingram was returned for Boston, without opposition. He was also a magistrate for the county of Herts and Deputy Lieutenant for the county of Lincoln.

It remains for us simply to state, that the subject of this brief memoir, as well as his eldest son, Herbert, were drowned on board the Lady Elgin steamer, on Lake Michigan, and that Mr. Ingram has left a widow, seven children, and a large circle of admiring friends to deplore his untimely fate. In his death, the press has lost one of its ablest coadjutors—the public, a benefactor—and the poor, a friend.

FUNNY BLUNDERS. — The Philadelphia *Inquirer* of Tuesday, contains quite a long report of a visit to Professor Barlincourt Lowe's big balloon. The report is of the sensation order, and contains two funny blunders. First, we have a statement that the balloon has a lifting power of twenty-two and a half tons; and a subsequent to the effect that about *seven hundred tons* of ballast are required to steady the monster! Again, the writer says, that the life-boat attached is three feet deep, six feet wide, and twenty-four feet long, and draws, light, only thirty-eight inches—or two inches more than its depth. Lowe must have entertained the author of this sketch with something stronger than water.

A WISE DECISION.—The colored people of Western Canada wished to deliver an address to His Royal Highness the Prince of Wales—but it was declined, because "it would present them in a separate and distinct light from the rest of the population." Upon this conclusion the St. Catherines *Constitutional* remarks:—"Had the advisers of the Prince taken the same stand throughout the Province, and not recognized other bodies, or allowed them to present themselves 'in a separate and distinct light from the rest of the population,' we think the unfortunate occurrences that have transpired at Kingston, Belleville, and other places, would have been avoided." So say we all.—*Picton Times.*

THE BEDFORD (Ind.) *Independent* says that after the close of a debate between Dunn and Daily, in one of the townships of that county, five democrats declared they meant to vote for Lincoln and Dunn.

HAPPINESS must arise from our own temper and actions, and not immediately from any external conditions.

OBSTRUCTING HORSE RAILWAY CARS.—A case was recently decided in the Mayor's Court, of Pittsburgh, involving a question similar to that previously decided in the Massachusetts Supreme Court, with regard to the relative rights of horse cars and common vehicles in the streets. Mayor Wilson delivered his opinion against the railway company upon the following grounds:

First. It does not appear from the evidence taken, as a whole, that the defendant was prompted by any malice, or that he willfully and knowingly entered upon said rails with a view to obstruct the same.

Second. It does not appear that the signal of the car driver was given in time to enable the defendant to drive off the track without great sacrifice of time and labor.

Thirdly. It never was the intention of the Legislature, in granting the right of way to the railway company, to deprive private citizens of their rights, or to interfere with the same; and if, in the exercise of our lawful rights in the reception of the necessaries of life at our own doors, the cars are obstructed for a few moments, it must be shown to have been done willfully and maliciously, to make the defendant liable.

THE LONDON TIMES of a recent date has the following paragraph: "Our readers will remember the case of Mrs. Putnam, a lady of color, whose treatment on board the *Europa* mail packet, on her passage to England from America, in November, 1859, was the subject of a correspondence with Sir Samuel Cunard, which appeared in our columns. In a letter, received within the last few days, Mrs. Putnum writes that she and her party, during the whole passage to the United States, on her return voyage by the *Arabia*, were admitted to all the rights and privileges of first class passengers, without opposition on the part of any one, even though shareholders were on board, or any failure in that courteous treatment which was their due. She speaks also of the polite and kind attention of some of her fellow-passengers. It is possible, therefore, for the Directors of the Cunard Company so to instruct the captains of their vessels as to insure to all persons the full enjoyment of their purchased accommodation, while under their care, and to preserve the official flag of her Majesty's mail packets from being dishonored by subserviency to the unrighteous prejudices of foreigners."

OF THE NUMEROUS missing ships which are from time to time noticed, many, it is believed, were destroyed by fire at sea, thro' the ignition of lucifer matches, or some other combustible goods, which had been shipped on board. Two instances of lucifers spontaneously igniting were recently reported at the English Lloyds. The ship *Fiel*, loading for Havana, in St. George's Dock, Liverpool, was discovered to be on fire. It was traced to a case of lucifer matches that had been surreptitiously shipped on board. The case, in a state of ignition, was got up and thrown overboard. Another instance of the dangerous character of such shipments took place at Fresh Wharf, London bridge. A case intended for one of the steamers loading at the wharf, was being carried down from a cart, when it fell on the ground and instantly burst into flames. The case proved to contain lucifers and congreves. Had these vessels sailed for sea with these inflamable stores, it is probable that the most disastrous consequences would have ensued. It behoves Lloyds to prosecute in all these cases, the character of the shipments being misrepresented.

A SMART BOY TWELVE YEARS OLD SAVING HIS BROTHER'S LIFE.—Samuel Ewing, a boy three years old, the son of Mr. Daniel Ewing, Harrison township, Licking county, Ohio, fell into a well 23 feet deep, twelve feet to the surface of the water, and the water eleven feet deep. A rotten board broke under his feet. His mother, heard him falling, ran out, and there he was struggling on the surface of the water, but soon sunk. His brother, Jesse, a boy 12 years old, got down after him, stepping on the stones each side the well, three feet in breadth.

The little boy came up to the surface of the water, and his brother laid his hands around his neck, placed one arm around the little boy's waist, and with the other hand, tied a long strap that their mother dropped down to them, under his brother's arms, and Mrs. Ewing pulled him up safe. Jesse then stepped up safe. After both came up, and the excitement was over, Mrs. Ewing was so weak that she was hardly able to walk. Mr. Ewing was not at home.

GRAND CHANCE TO SECURE A HOME upon such terms that any one who has any industry can do it. Mr. Glidden, who owns one-half of Lockwood & Glidden's Addition, has made me his agent, to sell his lots in said Addition, at unusually low prices, to any one who will improve them, and upon such terms that any one can meet the payments. It is unnecessary to go into argument to convince one who has any judgment that this property, which is situated in the First Ward, must, and will be the most desirable residence property in the city of Milwaukee. It is in full view of the Lake and on high ground which overlooks the city, and a more healthy situation cannot be found. Its location for business men is very desirable, the Horse Railroad passing through it every fifteen or twenty minutes. Much more could be said about this valuable property, but there will be no necessity to any person who have any desire to purchase any of said Lots, if they will call at my office they can see a map, and I will go with them and show them the Lots, and they can judge for themselves. The terms on which said Lots will be sold are as follows: Ten per cent. in twelve months; 15 per cent. in two years; and 25 per cent. every year thereafter until the amount is paid, with interest at the rate of 7 per cent. per annum, interest not to commence until six months after the date of purchase. Here is a chance never before offered, and there is every reason to believe that this property will advance 100 per cent. in less than twelve months. The great advantage of the Horse Railroad must, and will make it very desirable. The Lots are free from all incumbrances whatever. Certificate of title will be furnished to any one who may purchase.

Dealers in Boots and Shoes,
THE CELEBRATED COPPER TOE!
WADSWORTH & WELLS,
WHOLESALE DEALERS IN
Boots and Shoes,
60 LAKE STREET, CHICAGO 60.
WE OWN THE EXCLUSIVE RIGHT for the sale of MITCHELL'S PATENT METALLIC TIPPED BOOTS AND SHOES, for and within the States of Wisconsin, Iowa and Minnesota and hereby give notice that all parties dealing in these goods within the above States, without having first arranged with us and by our consent, are and will be direct infringers upon our EXCLUSIVE rights, and that as soon as we are advised of any infringement, shall demand proper and immediate redress.
We have made extensive arrangements with the most celebrated manufacturers, whereby we can fully supply the increasing demand with the best quality of these Tipped Boots and Shoes from our store in Chicago, each pair of which will be stamped and labeled with our name.
We shall recognize no Tipped goods within either the above States, but such as are thus stamped and supplied by us.
We will warrant in all instances one pair of children's copper-tipped shoes to out wear two and oftentimes three or four pairs of equal quality without tips, as can be shown by very many testimonials, while the expense is but a trifle more, making an actual average saving to the consumer of over two hundred per cent.
Merchants and dealers in Boots and Shoes within the above States, can also find these Metallic Tipped Boots and Shoes supplied and properly stamped by Wadsworth & Wells, for sale by ATKINS, STEELE & WHITE, and BRADLEY & METCALF, Milwaukee.

IMPORTANT TO FEMALES.

DR. CHEESEMAN'S PILLS.

Prepared by Cornelius L. Cheeseman, M.D.,
NEW YORK CITY.

THE COMBINATION OF INGREDIENTS in these Pills are the result of a long and extensive practice. They are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from interruption of nature.

TO MARRIED LADIES,

Dr. Cheeseman's Pills are invaluable, as they will bring on the monthly period with regularity. Ladies who have been disappointed in the use of other Pills can place the utmost confidence in Dr. Cheeseman's Pills doing all that they represent to do.

NOTICE.

There is one condition of the female system in which the Pills cannot be taken without producing a PECULIAR RESULT. The condition referred to is PREGNANCY—the result, MISCARRIAGE. Such is the irresistible tendency of the medicine to restore the sexual functions to a normal condition, that even the reproductive power of nature cannot resist it.

The New American Watch.

IN ORDER TO MEET THE REQUIREMENTS of Gentlemen who prefer a thinner watch than those usually made by us, we have lately issued a new style of watch on the three-quarter plate model, especially designed for this purpose.

In establishing this new series, it has also been our design to produce a watch in every way superior to the best and highest priced products of the most reputable of English and Swiss watch manufacturers; and no labor or expense has been spared to this end.

In all respects of fine and durable material, of external and internal finish, accurate compensation and adjustment, of mathematically just proportions, and *of practical results*, our new three-quarter plate watch challenges competition with any in the world,

For the AMERICAN WATCH CO., of Waltham Mass. ROBBINS & APPLETON, Agents,

Judson's Mountain Herb Pills.

HOW STRANGE AND WONDERFUL it often seems to us that a medicine composed of simple mountain herbs and roots, should so certainly search out and cure disease. How surprising that the Indians should know and preserve so long and well a secret that has escaped the search of the greatest physicians the world has ever seen. True, the ancient inhabitants of Mexico were a strange race, found by the Spaniards living in large cities, and allowing for their strange customs and religion as well civilized as their conquerors. In the words of a writer of some celebrity, "They have perished from the earth, their cities are gigantic piles of ruins, their Kings and Princes so mighty in their life are forgotten; their ruins and their medicine alone are left." The united testimony of all intelligent persons is that JUDSON'S MOUNTAIN HERB PILLS are the most successful medicine in the world in curing disease.

LIFE'S HARVEST.

Twilight had gathered to the sheaves of day,
Which time had scattered thickly here and there;
And night, pale night, had bound them one by one,
With the long braid of her own raven hair,
Silent and still, as angel floated down,
And bore the sheaves, the gathered sheaves, away;
And some were golden with the ripened grain,
And some were black and blasted with decay.
Yes, day by day, we sow, and twilight comes,
And gathers in the full sheaves, one by one;
And, by and by, life's evening hour will come
And we shall see the work our hands have done.

THE CHILD'S GIFT.

It was an intensely hot day in August, when a steamer came puffing up to a New York wharf to disembark its load of passengers. That living tide poured into the city, and greetings, loud and hearty, were exchanged on every side. Gradually all left the wharf, and there came forth from the steerage a lad, with a hurdy-gurdy under his arm. He came with a slow, lagging step over the plank, turning to cast a lingering, almost longing looks at the vessel, as if loth to leave it. He was very meanly dressed, in a loose blouse and short trousers; no shoes or stockings, and a coarse felt hat with a blue silk ribbon round it. He stood upon the wharf, looking first toward the city, then again turning to the steamer, while large tears rolled down his dark cheeks.

Pedro Carnavelli was an Italian boy, whose father had taken him from Italy to England, and from there had embarked for America to make his fortune. On the passage from England, Pedro's father died, and the prospect for a fortune seemed dark enough, as the lad stood so lonely and friendless upon the wharf, listening to the Babel of tongues around him, all speaking a strange language to the poor boy, listening in the vain hope of hearing one word of his own musical language. The vessel seemed almost like a home, compared with this new country. There, where his father died, he had kind sympathizing looks, warm pressures of the hand, and words in a tone which assured him of kindliness, even though he did not understand the tongue. There he had last seen his poor father, and heard the words of parting. Poor Pedro.

At length, drying his tears, with one deep parting sigh he took his last look at the steamer, and walked on through the great streets of the city. After wandering on for several hours, he began to feel faint and hungry, and his wondering looks at the novelties around him were checked by the recollection that he was penniless, homeless, and most pitifully hungry.

He was in front of a large dry goods store in Broadway, and, in a luxurious carriage near the door, he saw a little girl, richly dressed, looking with childish curiosity at his hurdy-gurdy. Thinking to earn pennies enough to buy a meal, he began to play.—The child crowed with delight, clapping her hands and calling, "Pretty boy! pretty music!" and pulling her nurses bonnet strings to make her turn her head and listen to the sounds which pleased her so much.

Pedro drew near the carriage. He was a passionate lover of beauty, and the child's lovely face was beaming with pleasure, afforded him as much pleasure as he was giving her by his music.

"Pretty little lady, give Pedro one little piece of money," he said, drawing on his small stock of English.

But the nurse did not turn her head, and the little one was too young to heed the appeal.

"Stand aside!" said a rough voice, and the liveried footman pushed Pedro away from the carriage door. Two ladies in cool, light silks passed him, stepped into the carriage; the door was closed, and it rolled away; leaving him unheeded where he stood. It was a poor beginning, and, sighing heavily, Pedro trudged on. Daylight was fading and he had made no money all day, and had no shelter for the night. True, it was in summer, and the Italian boy would have found it no great hardship to sleep in the open air, but he was weary and sick with hunger. He sat down on the step of a store, which was closed, and began to play, hoping some charitable individual would pass and pay him for his toil.

"What are you doing here?" said a man stopping before him.

"Charity!" said Pedro, holding out his hand.

"Humph! a beggar! Come, get up, I want to go in here." And the man passed him and went into the store.

Pedro's heart sank. Must he starve in this large city? At that instant the notes of a hand-organ fell on his ear. He rose slowly, and following the sound, he soon came up with the owner. Joy! he was an Italian. Sobbing with joy, Pedro told his story to the man, who listened with sympathy.

"You must come home with me to-night," he said, "and to-morrow we will see what to do with you."

With a lightened heart, Pedro tudged beside his new friend through the large streets, then into a narrow court, until he finally stopped before a small door, and beckoned Pedro to follow him.

The evening was passed pleasantly. Pedro's home had been in the same village which Angnoli had left six years before, and he could give his countryman information touching his own friends and relatives, with lively descriptions of life aboard ship, and his short visit to England. In the morning, Angnoli advised the lad to try the country. He took him in the cars to a locality where there were many handsome country seats, and left him there to try his fortune, advising him to remain several days, and if he did not succeed to return to him again and form new plans. Wringing his friend's hand, and with hearty good wishes for his success, Pedro saw him return to the city, while he, taking up his hurdy-gurdy, walked down the road.

It was a lovely day, the sky was clear and blue, with white, fleecy clouds lying like snow mountains with an azure background; above him tall trees waved with a rustling noise, and little birds fluttered about in the branches, singing, twittering, and joyous; under his feet the soft grass was much more grateful than the burning bricks of yesterday, and the boy wandered on, singing as he went, full of thankfulness for the beauties around him. There was a rich color in his cheeks; the large black eyes were full of joyousness; the lips, parted in giving forth musical notes, revealed white, even teeth, and the Pedro of the country walk seemed quite a different being from the sad, listless boy, seen the day before in Broadway. Soon beautiful villas were seen on the road through which he passed, with groups of children sporting under the trees.

Pedro turned the handle of his instrument and stopped before the gate of one of these mansions. In a moment he was surrounded by children—little girls in white dresses, with floating curls, little tottling boys, not yet in jackets, and the nurses of these little ones, too, came round the handsome Italian boy, to listen to the music. He played a lively waltz, and the children spinning round on the smooth lawn made quite as pretty a picture as a crowded, heated ball room. From the other houses, too, the children began to come out and gather about the young musician, and ladies came out upon the porches to watch the pretty, graceful dances, each probably singling out her own darling as the prettiest and most graceful of the group.

When the pleasure was at its height, Pedro doffed his hat and passed it round. The children darted off in all directions to find indulgent parents and solicit pennies, and Pedro, leaving his hat on the grass, played again, a well pleased smile playing round his beautiful mouth. Soon the little white robed fairies came again, and pennies and small pieces of silver were showered into the hat.

THE GREATEST
MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR
FROM
THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, MASS.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother,

NURSING SORE MOUTH

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,
DONALD KENNEDY.

Dr. MOTT'S
CHALYBEATE
RESTORATIVE
PILLS of IRON.

AN APERIENT AND STOMACHIC preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world, as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costiveness.

In unchecked Diarrhœa, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed to

DR. S. O. RICHARDSON'S

Sherry Wine Bitters!

The Celebrated New England Remedy
FOR HABITUAL CONSTIPATION,
JAUNDICE, FEVER AND AGUE, GENERAL DEBILITY, AND ALL DISEASES ARISING FROM A DISORDERED STOMACH, LIVER, OR BOWELS.

IT IS A MEDICINAL TONIC THAT most persons require during the summer season. Try its virtues all you who are debilitated and require medicinal aid.

The following is from the best authority. Mr. Stanford is a merchant, well known, and now, to see him, you would behold a new-life picture of health.

BROWNSVILLE, Henry Co., Ind., May 4, 1860.

MESSRS. J. N. HARRIS & Co., Cincinnati, O.:

Gents:—Your Agent visited me to-day, and proposed leaving me a supply of your Richardson's Sherry Wine Bitters on sale. I hailed them as an old and valued friend, for such they proved to me. After hearing a statement of my case, and experience with the bitters, you will not think me enthusiastic when I say that I attribute my present good health, *even life itself*, to the merits of your truly invaluable medicine. Some three years since I was attacked with great nervous debility, which was soon followed by palpitation of the heart, of the most severe and prostrating character. At the expiration of six months I was reduced to a mere skeleton, and was satisfied if relief did not come soon I must pass away. Two physicians attended me a good portion of the time, but their efforts to afford relief were of no avail. Finally one of them suggested a trial of the "Sherry Wine Bitters," and to my great satisfaction, their effects upon me were most beneficial from the start. After using about a dozen bottles I was completely restored, and am now in robust health. You may expect good sales of me, as I can recommend them on their merits.

You are at liberty to make use of this statement as may best suit you, as I give it freely, and with a hope that others may be induced to try it who are suffering as I was. With all respect, I remain,

Yours truly,
THOMAS STANFORD.

DR. CHURCHILL'S REMEDY.

WINCHESTER'S GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

(Made from the Formula of Dr. J. F. Churchill,)

FOR THE PREVENTION AND CURE OF

CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases.

This *Remedy* has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus acts *as a preservative with regard to Consumption, just as vaccination does with regard to small pox.*

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*

"I have used your preparation of the Hypophosphites *with the most happy effect.*"—*C. Fuller, M. D., Lynville, Ill.*

"I have been astonished in witnessing the good effects of *the Hypophosphites.* The statements in your pamphlet are not at all exaggerated. My patient was just entering the last stage of tubercular consumption."—*L. S. Moses, M. D., Hoosic Falls, N. Y.*

"They exert an important remedial influence over the tubercular disease by *improving the nervous strength and invigorating the nutritive functions.*"—*Dr. W. E. Rush, Norristown, N. J.*

"I have derived more satisfaction from the use of your Hypophosphites *than from all other forms of medication combined.*"—*Dr. Geo. W. Morris, Columbus, O.*

"If, on the earliest appearance of the symptoms, the patient takes daily about ten grains of the Hypophosphites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never known in his life before."

"Winchester's Hypophosphites are unexceptional in their preparation."—*Am. Druggists' Circular.*

"Mr. Winchester is worthy of all confidence, and devotes himself enthusiastically to these preparations in all their variety of combination.

Prepared strictly by Dr. Churchill's method."—*D. Meredith Reese, M. D., New York.*

"LOWELL, O., July 5, 1860.—I have had several cases given up by attending physicians who are now exempt from all the symptoms of pulmonary disease. I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the old treatment. I am now able to ride, in attending the sick, as many miles, perhaps, in a day, as any other physician in the country."—*W. J. Clark, M. D.*

"The Hypophosphites are most appropriate Remedies in large class of affections resulting from loss of nervous force."—*Boston Medical and Surgical Journal.*

Dr. Churchill's Work on Consumption

IS NOW READY.

The Hypophosphites may be used with incomparable success in Chronic Bronchitis, Asthma, Dyspepsia, and in all "Nervous" Disorders.

Make no Delay!

Consumptives, in any stage of the disease, should resort immediately to the use of the Hypophosphites of Lime and Soda. MOFFAT'S

Life Pills and Phœnix Bitters!

THESE MEDICINES HAVE NOW been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the Globe, for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

The following are among the distressing variety of human diseases in which the

VEGETABLE LIFE MEDICINES

Are well known to be infallible.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs and creating a flow of pure, healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heartburn, Headache, Restlessness, Ill-Temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days.

FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of respiration in such cases, and the thorough solution of all intestinal obstruction in others.

The Life Medicines have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.

DROPSIES of all kinds, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also WORMS, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

SCURVY, ULCERS and INVETERATE SORES, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

SCORBUTIC ERUPTIONS and BAD COMPLEXIONS by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin. COMMON COLDS and INFLUENZA will always be cured by one dose, or by two in the worst cases.

PILES.—The original proprietor of these Medicines, was cured of Piles, of 35 years standing by the use of the LIFE MEDICINES alone.

FEVER AND AGUE.—For this scourge of the western country, these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these Medicines is permanent.—TRY THEM, BE SATISFIED AND BE CURED.

BILIOUS FEVERS AND LIVER COMPLAINTS.—General Debility, Loss of Appetite, and Diseases of Females—the Medicines have been used with the most beneficial results in cases of this description: King's Evil and scrofula, in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. Night Sweats, Nervous Debility, Nervous Complaints of all kinds, Palpitation of the Heart, Painter's Colic, are speedily cured.

MERCURIAL DISEASES.—Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury, infinitely sooner than the most powerful preparations of Sarsaparilla.

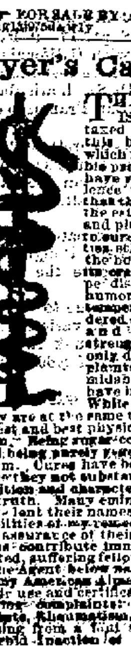
Ayer's Cathartic Pills.



THE SCIENCES OF CHEMISTRY and Medicine have been taxed to their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organ into their natural action and impart healthy tone with strength to the whole system. Not only do they cure the every day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them and they should have it.

ROMEO, Macomb Co., Mich., July 9, 1860.

MESSRS. J. N. HARRIS & Co.:

Gentlemen:—The confidence I have in Perry Davis' Pain Killer as a remedy for Colds, Coughs, Burns, Sprains and Rheumatism; for the cure of which I have successfully used it, induces me to cheerfully recommend the virtues to others.

A few months ago I had recourse to it to destroy a felon; although I had never heard of it being used for that purpose, and having suffered intensely from a former one, and having no other remedy at hand, I applied the Pain Killer freely for about fifteen minutes at evening, and repeated the application very briefly the next morning, which entirely destroyed it, and increased my confidence in the utility of the remedy. Yours truly,
A. W. CURTIS.
Minister of the Wesleyan Methodist Church.

MONETARY.

MONDAY P. M., September 17, 1860.

Our money market was quiet, comparatively, to-day. The unsettled state of the produce market checking the operations of shippers, has to a corresponding extent diminished the demand for currency from that quarter, and also the supply of Exchange. The latter however, is easy at ½ ₩ cent premium at the banks, but there is less disposition than usual to fill orders from outside banks at lower rates.

NEW YORK MONEY MATTERS.

CHICAGO MONEY MARKET.

The *Press & Tribune* of this morning says:

The dull news regarding breadstuffs, brought by the *Melita* yesterday evening, deterred shippers from operating to-day, and the supply of Eastern Exchange was therefore more limited and rates considerably firmer. The bankers, however, did not make any advance in their selling rates, although they sold very sparingly at ½ ₩ cent. prem. On the street there was a good demand at ½ ₩ cent., and in some instances ⅝ ₩ cent. was paid There is a fair supply of currency; but should the next steamer bring an advance in grain, shipments will probably increase, and there will be need for all the funds here.

We have to chronicle another dull day in the wheat market, and another serious decline in prices. Early to-day buyers endeavored to maintain the closing prices of Saturday, and several thousand bushels No. 1 spring were sold at 88@90c in store. After the steamer's advices reporting a decline in the Liverpool market of 4d ₩ cental in wheat, prices immediately dropped 3@4c, No. 1 spring selling at 86@87c, and No. 2 at 83@84c in store. Later in the afternoon there were no buyers at more than 85c for No. 1 in store, and there was one sale reported of 7,500 bus at 86c on board, equivalent to 84c in store. The tone of the market was decidedly nervous and unsettled, and a general disposition was manifested on the part of shippers to hold off and let her settle. The receipts it will be seen, are 53,383 bus. wheat, and 1,680 bbls flour, but the shipments are comparatively trifling.

Flour was almost entirely neglected, and the only sales reported were a couple of hundred barrels of ordinary mixed country brands at $4,50.

There was no change to note in coarse grains, and very little business was done.

Grain freights experienced the depressing influence of the dull market, and although there was only a limited number of vessels in port, offers were made to take wheat at 1c below the rates asked on Saturday, but shippers were not anxious to make engagements.

STOCK OF GROCERIES IN NEW YORK.

The actual stock of New Orleans sugar in New York on the 1st of September was 400 hhds, and the total stock was 83,374 hhds, being over 15,000 more than at the same time last year. The stock of molasses was 12,883 hhds and 8,389 bbls. The stock of Rio coffee there was 7,500 bags against 69,897 the same time last year.

In reference to the market the *Press & Tribune* says:

The receipts of wheat to-day were only 144,584 bus and the shipments 127,658 bus. The market to-day, under the influence of the foreign news telegraphed yesterday evening, was rather unsettled; but owing to a decline of 1c in freight, prices ruled a shade higher than at the close yesterday. About 130,000 bushels changed hands at 90c for extra Club in store; 84½@87c for No. 1 Spring; 82@84c for No. 2 Spring; and 75@77c for Rejected—the market closing quiet but firm—all parties anxiously expecting the arrival of the steamer on the 16th. The flour market was generally dull, and prices ruled 5@10c lower, with limited transactions at $4,50@5 for medium to choice spring extras. Corn was less active and prices were a shade lower: with sales of about 60,000 bus, at 37½@38c for No. 2 Canal afloat; 37@37½ for No. in store; and 36@36½c for No. 2. Oats quiet and unchanged. Barley quiet. Rye steady. The supply of Timothy Seed was limited and the market was firmer—sales varying from $2@2,10. Hides were firm and steady. No change in Highwines.

The prospect of a large fleet of vessels next week, as well as less demand for freight room, caused a decline of 1c ₩ bus in freights. The rates to-day were, by sail vessels: corn to Buffalo 14c; wheat to Buffalo 15c; wheat to Kingston, 21c; wheat to Oswego, to 22c.

CINCINNATI PORK AND PROVISION TRADE.

We extract the following from the *Price Current's* annual review of the commerce of Cincinnati, in reference to the hog and provision trade:

HOGS.—The disasterous results to packers of the season of 1858-59, and the large stocks on hand in the fall of 1859, caused the season to open with great caution on the part of dealers. Fewer contracts were made than for several years previously, and all was done that could be, to depress the market to $5 net, at which figure it was thought safe to operate. In the meantime considerable mess pork being contracted for, buyers in these contracts saw it to be to their interest to put up the price of hogs and accordingly entered the field themselves. The season opened on the 14th November, at $5,75@6. Early in December prices ran up to $6,75, but fell back to $6 by the middle of the month, under the influence of large receipts.—From this time the market fluctuated till the 20th January, when it closed. Buyers were induced to pay the high prices they did, from a conviction of the shortness of the crop by some 200,000 head, and also by the expectation of a good demand from England and from home consumers. This demand has generally proved equal to their expectations but the deficiency in the crop was much less than was calculated on. The result was, the season proved generally unprofitable, the hogs having cost more than was realized for the production. The number of hogs packed in Cincinnati during the season was 434,499, against 382,826 the previous season, and 446,677 in the season of 1857-8. The *Price Current's* returns from the whole West, show as follows:

	1858-9.	1859-60.
Ohio	633,397	[illegible]
Indiana	472,289	404,[illegible]
Illinois........................	591,330	[illegible],935
Kentucky	396,117	322,457
Missouri	163,774	190,260
Iowa	163,974	163,956
Wisconsin	93,982	54,500
Tennessee........................	63,172	26,800
Grand Total........................	2,465,074	2,850,522

Decrease 114,218 equal to 4⅖ per cent.

The decrease in average weight was 1 1-8 per cent equal to 16,945 hogs; so that the total decrease was really equivalent to 381,159 hogs, or 5⅗ per cent less than the crop of 1858-9.

PROVISIONS.—The year opened with a good demand and until the middle of October prices steadily advanced. From that time, it becoming evident that there was an overstock of old provisions, the market declined till the pork season opened. During the summer there has been no speculative demand. Better prices have been realized than would have been but for the firmness and good management of dealers. The results of the season have shown that the prices paid for hogs were 75c ₩ cwt. too high and hence the trade has been unpredictable. The stock of bulk meats and bacon now on hand is estimated at 9,000 lbs.

MARINE ITEMS.

SCARCITY OF VESSELS.

The prevalence of south-westerly winds for several days has greatly delayed vessels from below coming this way, and yesterday morning our harbor presented quite a bare appearance, but two or three sail vessels being within sight from Walker's Point bridge. The wind has been very favorable for the large fleet that cleared hence last week bound down with grain, and all of them must have made unusually good time as far as the St. Clair River, at least. There is a good many vessels on the way here, which a north-easter would bring in with a rush.

SCHOONER KETCHUM DISMASTED.

A private despatch from Sarnia, C. W., last evening says that the steamer *Cleveland* passed down this P. M. with the schooner *Ketchum*, of Cleveland, in tow, her masts having been carried away in a severe storm last night.

SERIOUS COLLISION.

The Detroit papers of Saturday bring us the particulars of a collision between the bark *S. B. Pomeroy* and schr. *Mary B. Hale*, on Lake Erie. The *Pomeroy* had 22,000 bus of wheat from this port, but her cargo appears to have escaped injury. The *Free Press* says:

A collision took place between the bark *S. B. Pomeroy* and schr. *Mary B. Hale*, Thursday night about 2 o'clock, when off the Colchester clay banks, Lake Erie. The *Pomeroy* was bound down with a cargo of grain. The *Hale* had on 319 tons of coal bound for Lake Superior. The *Pomeroy's* foremast head was carried away and with it all her top hamper and headgear, leaving her big anchor in the *Hale's* cabin. The *Hale's* foresail, mainsail, mainboom, and one half of her cabin were destroyed. Both vessels remain at anchor where they collided awaiting orders from owners. Damages to *Pomeroy* about $500; to the *Hale* $1,000. Capt. Moore, of the *Hale*, was in town yesterday, from whom we get the above particulars.

SCHOONER SUNK.

The schr. *Vermont*, with a cargo of wheat and corn, struck the pier at Cleveland, Tuesday night, and sunk just inside. No lives were lost. Her cargo is insured.

STEAMER CITY OF CLEVELAND SOLD.

Captain EBER WARD, of Detroit, has purchased the steamer *City of Cleveland*, of PRATT & Co., Buffalo, with the intention of having her ply between Detroit and Buffalo, carrying freight and passengers. The price, we learn, was $25,000. She will be commanded by Captain L. B. GOLDSMITH, late of the *Western Metropolis* (now laid up for the season), and is expected at Detroit in a few days.

THE STEAM YACHT SCIOTA.

Superintendent MUIR's steam yacht *Sciota*, built in this city by L. H. BOOTH, was out on her trial trip at Detroit on Friday, and the Detroit papers say that the company of gentlemen on board expressed themselves gratified at so favorable an exhibition of her good qualities.

VESSELS IN THE GRAIN TRADE.

The high rates of freights have brought all kinds of craft into the grain-carrying trade. Every vessel on the lakes usually employed in the grain business is in service, and vessels have been transferred from the lumber, Lake Superior, and even wood trade to the transportation of grain. In the list of vessels passing Detroit are now found many that have not been in commission before in three years, and many others that never passed Detroit before, having been employed in some local trade. It is even said that one or two steamers are being fitted up for the trade. Why would it not pay for them as well as for others?

MILWAUKEE AND BUFFALO LINE.

We understand that a new line of propellers is about being formed under the above name to run between Buffalo and Milwaukee, making this port their terminus. We hope the rumor is correct. Such a line would doubtless prove a great convenience to our shippers, and should receive a liberal share of patronage from our merchants. It is reported that the *Fountain City*, *Adriatic*, *Forest Queen*, *Globe* and *Cuyahoga* are amongst the steamers that will compose the new line.

SCHOONER ELIZA LOGAN.

This schooner was partially dismasted on Tuesday near Long Point, losing her mainmast some half way above deck. She was towed under Long Point by some propeller, and is hourly expected here.—*Buffalo Express*.

PASSED DETROIT.

The following is a list of vessels that passed Detroit on Friday:

BOUND UP.—Props Tonawanda, Adriatic, Mendota; barks De Soto, R. G. Winslow, Gibralter, Mary Stockton; brig New York; schrs. W. R. Hana, L. B. Shephard, Cadet, Seaman, Alnwick.

BOUND DOWN—Stmr. Forest Queen; props. City of Madison, Racine; brig Andes.

ASHORE

The schr. *Coleraine*, bound up, has gone ashore on a reef off nearly opposite Point au Pelee Island. The Captain reached here last evening in quest of a tug, to get her off if possible. He returned last night with the tug *Dispatch*. The wind to-day is very strong from SW, and the chances at present are very much against her.—*Detroit Tribune*, Saturday evening.

RAILWAY MATTERS.

RAILROAD EARNINGS.

The earnings of the La Crosse & Milwaukee Railroad for the month of August were 52,570 34—an increase of $7,966 74 over the corresponding month of last year. The following is the official statement:

	1860.	1859.	
Freight	$20,899 72	$17,455 85	Inc. 3,411 40
Passengers	22,726 12	21,119 66	" 1,606 46
Miscellaneous ..	8,944 44	5,995 56	" 2,918 88
Total	$52,570 34	$44,603 60	
Increase, 1860			$7,965 74

In order to show the comparative business of the two railroads from this city to the Mississippi, we republish the earnings of the Milwaukee & Mississippi Railroad for August:

	1859.	1860.	
Freight	$28,251 25	$41,780 96	Inc. 13,455 70
Passengers	19,299 62	15,850 93	Dec 3,438 69
Mails and Rents	1,835 42	3,453 72	Inc. 1,617 30
Total ..	$49,356 30	$61,041 61	
Increase, 1860.			11,655 31

The increase in the earnings of the Mil. & Miss. R. R. were all in the last week of the month, and it should be remembered that the movement of the new crops on the line of the La Crosse road had hardly commenced before the first of September. The earnings of both of these roads for the present month and October, will, we are confident, show as large traffic for their resources as any other railroads in the West.

The decrease of $3,438 69 in the passenger earnings of the Mil. & Miss. R. R., will surprise many, and we think very clearly indicates that Superintendent Jarvis' plan for "protecting the interests of the stock holder" by diverting the through travel of the road via the Northwestern railway from this city, has not been attended with the most flattering success.

The official statement of the earnings of the New York Central Railroad in August is as follows:

August, 1860.......................$639,125 28

August, 1859....................... 601,919 97

Increase........................ $ 97,205 31

RIVER NEWS.

From La Crosse.

Special Correspondence of the Sentinel.

LA CROSSE, Sept. 17th, 1860.

The steamer *Denmark*, of the St. Louis Line, arrived down at 10:30 Saturday night, and left 1,047 sacks grain. This line of boats makes better time than any line that runs below La Crosse. She left for St. Louis at 11 P. M. The *Alhambra*, of the Galena and Prairie du Chien Line, arrived down at 12, midnight, 60 hours from St. Paul. She had quite a number of people on her that started down the river to hear Gov. SEWARD of La Crosse, but while he was speaking at La Crosse they were aground on Winona Bar, and the boat did not arrive at La Crosse until 17 hours after the Governor had left for St. Paul. The *Favorite*, of the La Crosse Line arrived down at 2:30 A. M. Sunday, and returned for St. Paul at 4 A. M. with 30 passengers and good freight list. The *Key City*, of Galena Line, passed up at 1 A. M. Sunday. The *Northern Belle*, of same line, arrived down at 3 P. M. Sunday. The *Winona*, of La Crosse Line, arrived down at 4:20 A. M. this morning with passengers and freight. She reports a rise of six inches at St. Paul, but the river was at a stand when she left. She met the *Frank Steele* at Prescott, the *Key City* at Maiden Rock, the *Favorite* at North Pepin, and *Æolian* at Lake City. The *Chippewa Valley*, of La Crosse Line, arrived down 2 P. M. Sunday with wheat and flour for La Crosse Road.

New and Important Arrangement.

To Shippers of Freight TO THE NORTH-WEST.

THE LA CROSSE & ST. PAUL

UNITED STATES MAIL PACKET LINE

Running only between LA CROSSE & ST. PAUL for the transmission of

Passengers, Freight and Mails.

THE PACKET LINE IS COMPOSED of the Steam Packets

Favorite, Frank Steele, Winona, and Aeolian,

Acknowledged to be the best boats for the trade upon the Upper Mississippi, being of lighter draft than any now running.

This Line carries the United States Mail, and has not missed a daily connection since it was established, with the trains, either way, upon the La Crosse & Milwaukee Railroad.

Shippers from Milwaukee will see that this is the most reliable Line of Boats for Freight, as the lightness of draft enables them to make their trip without delay, while by any other route delays are unavoidable.

One of the above Boats will leave La Crosse every evening, on the arrival of the 1:55 P. M. train from Milwaukee, and returning arrive at La Crosse in season to connect with the Express Passenger train, which leaves at 5 A. M.

And whereas, by said mortgage deed it is provided that if said railroad company should fail, neglect or refuse to pay the principal sum, or any part thereof, or any of the interest on any of the bonds of said company secured by said mortgage deed, at any time when the same shall become due, and payable according to the tenor of said bonds, when demanded, then, at the expiration of sixty days from and after such default, failure, neglect or refusal, in case such principal or interest should then remain unpaid, the subscribers hereto were authorized and directed by said mortgage deed, upon the written request of the holders of at least one-half of the said mortgage bonds issued, under said mortgage deed then outstanding unpaid, to cause the said premises, real and personal estate, and property, rights and franchises, or so much thereof as should be necessary to pay and discharge the principal and interest of all the said mortgage bonds as should then be unpaid, to be sold at public auction, in the village of Manitowoc, in the State of Wisconsin aforesaid, or in the city of New York, on giving at least ninety days' previous notice of the time, place and terms of such sale, and of the real and personal property and estate, rights and franchises to be sold, by publishing the same in two newspapers of good circulation in each of the cities of Milwaukee and New York, in order to pay and discharge the principal and interest of the mortgage bonds aforesaid; and on such sale to execute and deliver to the purchaser or purchasers thereof a good and sufficient deed of conveyance in fee simple for the same, which will be a bar against the said railroad company, their successors and assigns, and all persons claiming under them, of all right, interest or claim of, in or to the said premises, real and personal estate and property, rights and franchises, or any part thereof.
